GROUNDBREAKING TECHNOLOGY

The Pranan devices are manufactured with groundbreaking technology (nanodiamonds circuits). Their duration is unlimited (they require no maintenance or batteries) and are activated automatically in the presence of electromagnetic radiation.

WHAT DO THEY PROTECT FROM?

The Pranan devices effectively protect the human body from alternations caused by electromagnetic pollution generated by Wi-Fi waves, 6G, 5G, 4G, radars, telephone towers, etc. that are used in everyday life.

WHY ARE THEY UNIQUE?

Because they function like auto-transformers. In other words, they balance the alteration generated by electromagnetic radiation. For this reason, they are extremely effective as shielding devices and are highly recommended for electrosensitive persons.
